JONATHAN LUNA

Data Engineer · São Paulo, São Paulo – Brazil

Summary

With over five years of experience in the development field, acting as a NLP developer, data engineer and technical support specialist.

https://lunajedu.netlify.app | (+55)11-95020-5288 | lunaj.edu@gmail.com

Skills

Languages	Spanish (native) · Portuguese (fluent) · English (advanced)
Programming	Python (intermediate) · JavaScript (basic)
Database	SQL (advanced)
Business Intelligence	Microsoft Power BI (basic), Looker Studio (advanced)
Infrastructure	Docker (basic)
Design	UI/UX · Figma · Conversational Flows (chatbots)
Integration	API · Postman (basic)
Management	Agil Methodologies · Scrum
Qualitative research	Text processing · Atlas.ti · Regex

Experience

Universidade Federal do ABC (UFABC). Centro de Engenharia, Modelagem e Ciências Sociais Aplicadas (CECS) — São Paulo, Brazil

DATA ENGINEER AND FULL STACK DEVELOPER — May. 2024 – May. 2026

- Technical Training Scholarship (TT-4) – FAPESP
- Project: Students with Socioeconomic Disadvantages in Higher Education (2000-2020): scientific challenges in knowledge production and affirmative action policies.
- Grant: 24/02820-0 (link to the projet)
- Activities: text and bibliographic source processing for database generation
- Data engineering: creation and maintenance of ETL pipelines for database construction
- Backend development of the project using the Python Django framework
- Frontend development with React (TypeScript) (link to the project's beta version)

Treble.AI — Seattle, USA

TECHNICAL SUPPORT SPECIALIST — Nov. 2022 – May. 2024

- Customer support via tickets, emails, Slack, and other communication channels.
- Troubleshooting and resolving complex technical issues, including product bugs and customer inquiries, using **AWS CloudWatch** logs for monitoring and debugging.
- Deep understanding of the product to provide detailed insights and best practices.
- **SQL (PostgreSQL)** for generating reports and analyzing customer data based on specific requests.
- API troubleshooting and integration support, using Postman for testing and debugging API connections.
- Scripting and automation of repetitive tasks using **Python** and **JavaScript**.
- Continuous optimization of support processes by identifying inefficiencies and implementing improvements.
- Documentation of technical issues and solutions to enhance the knowledge base.

· Collaboration with Product and Engineering teams to communicate bugs, feature requests, and system issues.
· Ensuring a high level of customer satisfaction by focusing on key metrics such as CSAT (Customer Satisfaction Score) and Resolution Time.

Smarters São Paulo, Brazil

NLP ANALYST FOR CHATBOTS Nov. 2021 – Nov. 2023

· Implementation of chatbots' NLP understanding capabilities, involving project planning, development, and performance analysis.
· Development of Natural Language Processing (NLP) for chatbots in Portuguese, Spanish, and English.
· Utilization of a low-code platform that employs Regex patterns to deploy chatbots' understanding capabilities.
· Experience with integration systems, connecting chatbots to clients' environments through API connections.
· Use of Postman to test and configure APIs for chatbot integration.
· SQL for analyzing the NLP database, particularly with PostgreSQL.
· JavaScript for creating visualizations and dashboards using Apache's E-charts models.
· Creation of interactive reports with analytical insights.
· Presentation of reports to the commercial area and to Portuguese and Spanish-speaking clients.

Instituto de Estudios Ecuatorianos Quito, Ecuador

SOCIAL RESEARCH ASSISTANT Nov. 2020 – Jul. 2021

· Search, modeling, and data processing on the impact of civil society organizations on the economy and agrarian policy in Ecuador.
· Bibliographic research.
· Statistical analysis of social indicators using SPSS software.
· Textual analysis of large volumes of journals using Python's web scraping libraries.
· Elaboration of maps of social actors for academic essays and reports.
· Utilization of Atlas.ti for qualitative text analysis.

Instituto de Estudios Ecuatorianos Quito, Ecuador

SOCIAL RESEARCH ASSISTANT - INTERSHIP Oct. 2019 – Feb. 2020

· Search and analysis of newspapers.
· Data organization in Excel.
· Analysis of the productive and economic system of the Ecuadorian agricultural sector.
· Writing academic reports.

Education

Universidade de São Paulo São Paulo, Brazil

DOCTORATE DEGREE IN SOCIOLOGY 2024 – 2027

· Research interest: Data analysis · Digital Sociology and Artificial Intelligence · I.T Tools for scientific research.
· Tools: Data Mining · NLP with Python (spaCy, NLTK, BERT) · Non-structured databases (MongoDB) · Structured databases (SQL)

Universidade de São Paulo São Paulo, Brazil

MASTER'S DEGREE IN SOCIOLOGY 2022 – 2024

· Research interest: Labor market · Political violence · Digital Sociology and Artificial Intelligence
· Transfer to the Direct Doctorate program.

Universidad Central del Ecuador Quito, Ecuador
